Skills

C++

Qt Framework.

Python

Numpy, Pandas, Keras

Languages

English

Additional Skills

Linux

Agile

Git/Github

Interests

- Software Engineering
- Machine Learning
- React
- Cloud Computing
- Data Science

Education

Honours Computer Science,
University of South Africa

2023 - present | Johannesburg, South Africa

Bsc Computer Science,
University of South Africa

2019 - 2022 | Johannesburg, South Africa

75% Average

Notable Subjects

Advanced programming (C++)

Data Structures/Algorithm Analysis (C++)

Visual Programming (Python)

Techniques of Artificial Intelligence

Databases (Oracle 12c)

Software Engineering

Awards

Distinction (Cum Laude) BSc Computer Science,
University of South Africa

2022

About me

I am a dedicated and passionate computer scientist, with a strong foundation in problem-solving and a drive for innovative solutions. With a keen eye for detail and a natural analytical mindset, I excel in tackling complex challenges. I embrace continuous learning to ensure my skills remain relevant and adaptable. Collaborative and effective in communication, I thrive in diverse teams, bringing a valuable contribution to group dynamics. I am fuelled by curiosity and a constant desire to improve, exploring emerging technologies and pushing the boundaries of technological advancements.
